

We need to Pray for the Future Generations project

We have a team headed up by Peter and Wendy Thompson co-ordinating the prayer for the project. Particular Prayer points have been mainly shared between the clergy, members of the committee and others who have volunteered to pray.

Prayer has been at the heart of all meetings and decisions, and before decisions have been made.

Many members of our Church Family have of course been including 'For Future Generations' in their Prayer time.

Now is the time to move to cover the proposals and decisions into more corporate times of Prayer where the whole church family has the opportunity to hear what is going on and to pray together with others to cover those points.

As a wider congregation, we need to pray for wisdom as more detailed decisions about the design are made, with the inevitable compromises and consequences for timescales and budgets.

The fund raising team are also making key decisions in the run-up to our Pledge Days.

Pray that we will be sensitive to the concerns of people in the wider community who, although not regular attenders, have concerns about elements of our proposals.

We have an increasing number of people who are advising on the fabric of the building, areas of particular significance or sensitivity. Pray that we appoint the right people and that their advice is clear and helpful to the decisions that the project, the Diocesan Advisory Committee and the Local Authority will have to make in the future,

Pray for the health of everybody involved in the project.

Please keep an eye on the Notices and come and join in our Church Family Prayer Times, as 'For Future Generations' moves forward.
