Statement of Needs and Statement of Significance

Proposing works on any listed building, and particularly a medieval church like Knowle Parish Church, one of only two Grade 1 listed buildings in Knowle, requires that we demonstrate a clear set of reasons for wanting to undertake the work, and a clear understanding of the significance of both the building and the church community within the local area.

These are captured in the Statement of Needs and the Statement of Significance.

These documents were developed early in the project to assist our Architects and are both now being revised to reflect the developments in the project and the results of the research that has been undertaken by our project team and the specialists who have carried out assessments in and around the church.
