

NATIVITY TRAIL MAP*

* NOT TO SCALE

Instructions

1. Familiarise yourself with the map. You can print it off, or take a picture of it so you have it with you. At each stop you will find a nativity picture in a window, with a letter in the picture.
2. Make sure you have a QR code scanner. The camera app may not work, so we advise downloading a free app to make sure it takes you to the right place!
3. Follow the numbers (starting at number 1) and at each stop find the letter in the picture. (Number 6 has no letter or QR code)
4. Also at each stop, scan the QR code and read about that part of the Christmas story.
5. Once you've finished your trail, see if you can make a word with the letters you have found. Email us with your finished word and receive and prize in the New Year!
